

ADEPT

Ticks all the right boxes!

- ADEPT is early to harvest (Maturity Class 7) and suitable for growing on most sites
- With high dry matter yields (104% controls) ADEPT will provide good silage yields
- ADEPT has superb digestibility from both its high starch content and also its exceptional cell wall digestibility, making ADEPT one of the best varieties available

Maize varieties don't always travel well - that's why we've developed the most suitable varieties specifically for UK farmers from Scotland to the South Coast at our breeding and test sites across the country. So it comes as no surprise that over one third of the maize grown in the UK is developed and bred by Limagrain UK - experience *our* knowledge.
