

HERB MIXTURE

| | | |
|------|----------------|----------------------|
| 35% | Chicory | Cichorium intybus |
| 25% | Burnet | Sanguisorba minor |
| 10% | Ribgrass | Plantago lanceolata |
| 30% | Sheeps Parsley | Petroselinum crispum |
| 100% | | |

Our herb mixture has been especially developed for horses and ponies and includes a number of deep rooting and nutritious species which provide a good source of minerals and trace elements.

Our mixed herbs are included in selected grass seed mixtures, but are also available separately for sowing in strips or islands in the field which often gives better establishment.

Available in 1kg packs.

SOWING RATES

For complete re-seeds we recommend a sowing rate of 15-20 kgs per acre and for overseeds or improvements 10-15 kgs per acre depending on how much the sward has deteriorated.

Our seed is supplied in handy 10kg packs.

Grass Seed Mixtures for Equestrian Purposes

2010

EQUESTRIAN MIXTURES

Our popular range of Equestrian Mixtures has been extensively revised and several significant advances have been made including an improved herb mix and the introduction of a special 'horse-hay' mixture.

All our mixtures (which are packed in 10 kilo bags) have been specifically formulated after extensive consultation with Equine Nutritionists. They therefore avoid high sugar grasses, popular in agriculture, because they can increase the risk of Laminitis in horses and induce "stroppy" temperaments in mares.

The requirement in a mixture can vary depending on the type of horse involved and these mixtures cover the range of requirements we have had over the years from racing gallops to pony paddocks.

HORSE Paddock MIXTURE

| | | |
|------|----------|----------------------------|
| 7% | VNS | Smooth Stalked Meadowgrass |
| 14% | Franklin | Creeping Red Fescue |
| 17% | Erecta | Timothy |
| 23% | Denver | Late Perennial Ryegrass |
| 27% | Cancan | Late Perennial Ryegrass |
| 12% | Herbie | Late Perennial Ryegrass |
| 100% | | |

This mixture has been formulated to provide grazing for horses and ponies with intermittent rests from grazing to produce a hay crop. Depending on any herbs present we would recommend the addition of a minimum of 250 grams of mixed herbs per acre (either mixed with the grass or preferably sown in strips in the sward) to improve the nutritional aspects of the sward.

The mixture is designed to perform well with moderate inputs of nitrogen, but a good application before closing off for hay will produce the best results.

All Natural Seed - Sow at 10-15 kgs per acre

EQUIPaddock MIXTURE

| | | |
|------|----------|-------------------------------|
| 15% | Sherwood | Early Perennial Ryegrass |
| 30% | Laguna | Mid-season Perennial Ryegrass |
| 23% | Herbie | Late Perennial Ryegrass |
| 12% | Erecta | Timothy |
| 4% | VNS | Smooth Stalked Meadowgrass |
| 16% | Franklin | Creeping Red Fescue |
| 100% | | |

Our "Equipaddock" Horse and Pony Paddock Mixture is available in 1/2 acre plastic buckets - containing 7 kgs of seed.

A slightly amended mixture to our standard Horse Paddock, this handy pack enables you to reseed areas and at the same time leaves you a plastic container that will be useful around your stables.

All Natural Seed - Available in 1/2 acre buckets

GALLOPS AND SCHOOLING AREA MIXTURE

| | | |
|------|----------|------------------------------|
| 4% | VNS | Crested Dogstail |
| 20% | Dawson | Slender Creeping Red Fescue |
| 10% | VNS | Smooth Stalked Meadowgrass |
| 10% | Franklin | Creeping Red Fescue |
| 28% | Herbie | Late Perennial Ryegrass |
| 28% | Mondial | Turf Type Perennial Ryegrass |
| 100% | | |

This mixture is designed to produce a very dense, springy sward, capable of withstanding very heavy wear and is of course also perfectly suited to racecourses and polo pitches.

Naturally the regular maintenance of this area will pay off by ensuring the turf maintains its springy nature.

All Natural Seed - Sow at 20-40 kgs per acre

EQUESTRIAN MIXTURES

HAYLAGE MIXTURE

| | | |
|------|----------|-------------------------------|
| 8% | Erecta | Timothy |
| 25% | Prospect | Italian Ryegrass |
| 25% | Davinci | Italian Ryegrass |
| 22% | Mongita | Mid-season Perennial Ryegrass |
| 20% | Hymer | Hybrid Ryegrass |
| 100% | | |

A short term mixture for the production of quality haylage. High in fibre, but with a good "nose".

All Natural Seed - Sow at 12-15 kgs per acre

HORSE HAY MIXTURE

| | | |
|------|---------|-------------------------|
| 10% | Erecta | Timothy |
| 5% | Comtal | Timothy |
| 5% | Pizza | Cocksfoot |
| 5% | Darimo | Meadow Fescue |
| 30% | Herbie | Late Perennial Ryegrass |
| 20% | Foxtrot | Late Perennial Ryegrass |
| 25% | Pastour | Late Perennial Ryegrass |
| 100% | | |

This mixture is designed to produce high quality horse hay with that special 'nose' that can only come from a good Timothy content. It will also provide useful grazing in the early spring and during late summer and autumn. In winter it should only be grazed lightly if a good hay crop is desired.

All Natural Seed - Sow at 12-15 kgs per acre

STUD Paddock MIXTURE

| | | |
|------|-------------------------|------------------------------|
| 6% | VNS | Crested Dogstail |
| 6% | VNS | Smooth Stalked Meadowgrass |
| 15% | Franklin | Creeping Red Fescue |
| 20% | Herbie | Late Perennial Ryegrass |
| 14% | Denver | Late Perennial Ryegrass |
| 14% | Foxtrot | Late Perennial Ryegrass |
| 20% | Mondial | Turf Type Perennial Ryegrass |
| 5% | Equestrian Herb Mixture | |
| 100% | | |

This mixture is designed to produce a good, well balanced sward especially suitable for mares and their foals. The deep rooted herbs will improve the calcium and phosphorus levels, being two of the more important trace elements so important for the growth and bone development in young horses.

All Natural Seed - Sow at 15-40 kgs per acre

STALLION Paddock MIXTURE

| | | |
|------|-------------------------|------------------------------|
| 6% | VNS | Crested Dogstail |
| 10% | Dawson | Slender Creeping Red Fescue |
| 12% | VNS | Smooth Stalked Meadowgrass |
| 12% | Franklin | Creeping Red Fescue |
| 15% | Herbie | Late Perennial Ryegrass |
| 14% | Foxtrot | Late Perennial Ryegrass |
| 28% | Mondial | Turf Type Perennial Ryegrass |
| 3% | Equestrian Herb Mixture | |
| 100% | | |

The Stallion Paddock mixture is formulated to withstand harder wear whilst still maintaining a dense, springy and nutritious sward. It contains MONDIAL turf type perennial ryegrass, which is rated very well indeed for its wear tolerance and early growth.

All Natural Seed - Sow at 15-40 kgs per acre
